

Snapdragon Flight™ End-of-Life and Last-Time-Buy Notice

Dear Snapdragon Flight™ Customer:

Due to the discontinuation of key components, Snapdragon Flight™ Development Kit and Snapdragon Flight™ Development Boards based on the APQ8074 processor, will become End of Life in 2018 with a Last Time Buy date of March 31, 2018.

Our Webstore will continue to accept your orders, prior to that date, at the links below.

<https://shop.intrinsyc.com/collections/development-platforms/products/snapdragon-flight-dev-kit>

<https://shop.intrinsyc.com/collections/development-platforms/products/qualcomm-snapdragon-flight-sbc>

Final delivery of units ordered is expected to have a lead time of approximately 24 weeks due to the long delivery time of some components. We will do our best to accommodate all orders, however, we cannot guarantee that we will have sufficient supply for all orders received. Shipments will be prioritized based on when orders are received.

Qualcomm® is currently working on the next generation of the Snapdragon Flight™ platform, based on the Snapdragon™ 820, to be available in the near future. Stay tuned for more details by joining our mailing list for the latest updates at the link below.
